

Glider Cider

Dry

A dryer version of our original flagship, Glider Dry has a whisper of apples, a light tart note and a crisp champagne-like flavor and finish. Colorado Cider's first product, Dry was an immediate contrast to what was thought of as cider. It is a fan favorite for those looking for a simple crisp cider.

Bunk: Glider Dry is not named after the sense of humor (or lack thereof) of either one of the owners, employees or general image of Colorado Cider Company.

Ingredients: Fresh pressed apple juice, and yeast.
