

# GRASSHOP-AH

The first in our Botanical Series, Grasshop-ah marries our Glider cider with lemongrass and hops. These botanicals provide aromas of lemon zest, a citrus bite, and bright tropical notes. A late addition of dry hops and a dash of sweetness balance and compliment these unique-to-cider flavors.

Grasshop-ah is the perfect bridge for beer drinkers looking to cross over to the cider world. It gives them familiar flavors in a cider home. It's also a hit with gluten-intolerant drinkers seeking a beery experience, and bold-minded cider lovers looking for new adventures.

**Ah some:** Grass. Hop. Ah. Took us back to the 70's T.V. show "Kung Fu" and the patient response to the ever questioning young monk who would one day kick some serious kung fu butt. Grasshop-ah is an homage to questioning "why" and challenging tradition with an emphatic "why not?"
